World Search Engine

www.Inter-Xect.com

How Inter-Xect works:

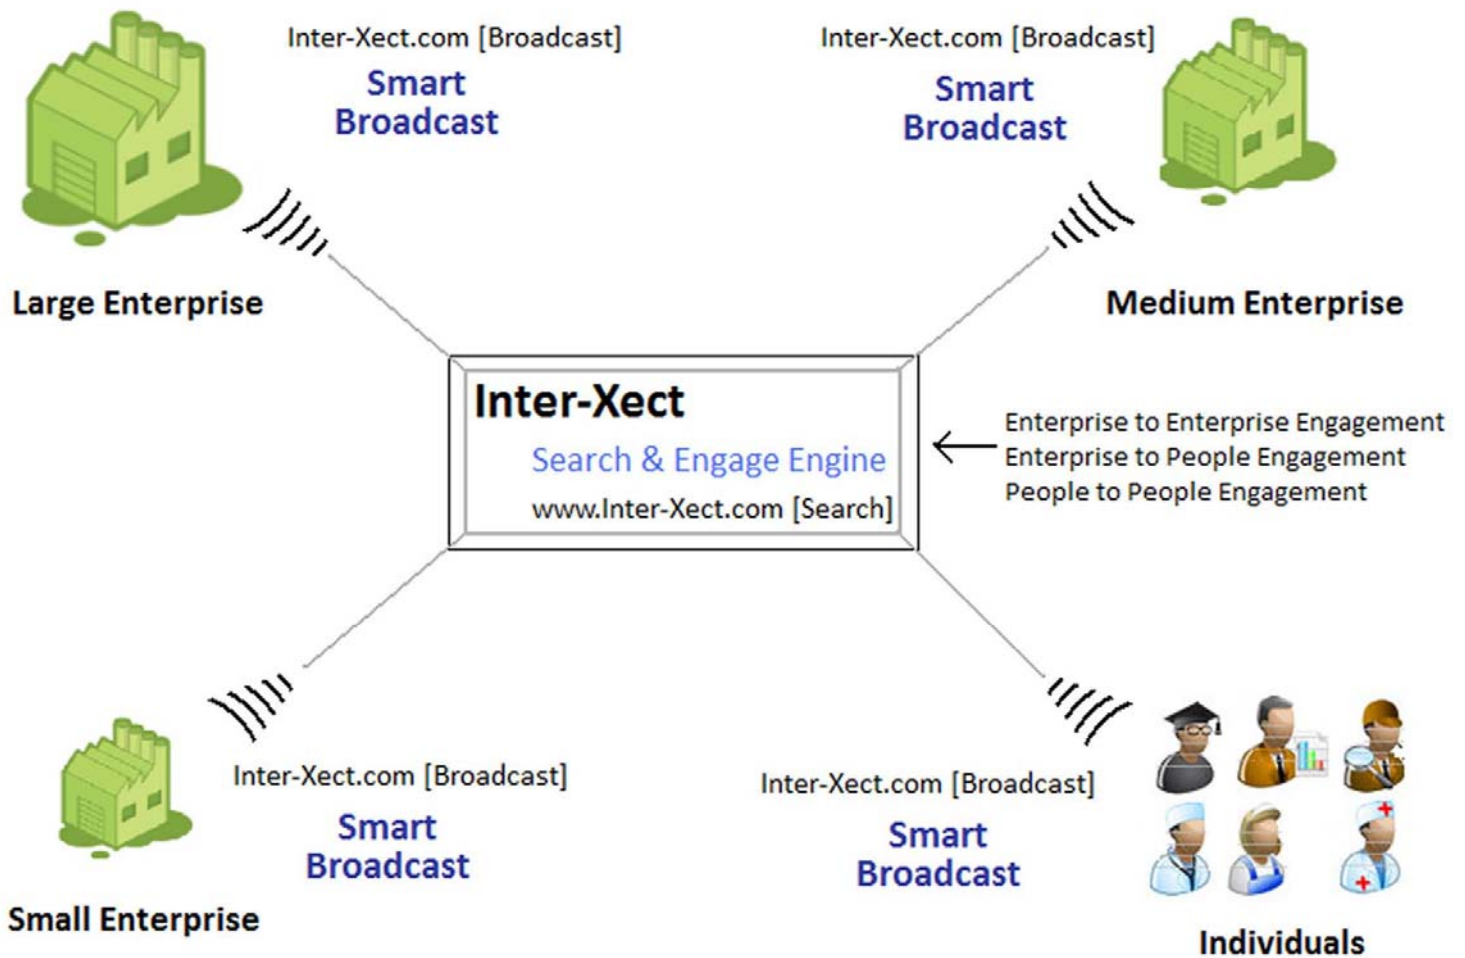

Inter-Xect consists of two parts:

1. Broadcast Engine
2. Search Engine.

Broadcast engine allows people and enterprises to broadcast Information. The Information (Data) can be about absolutely any product, service, human resource etc.

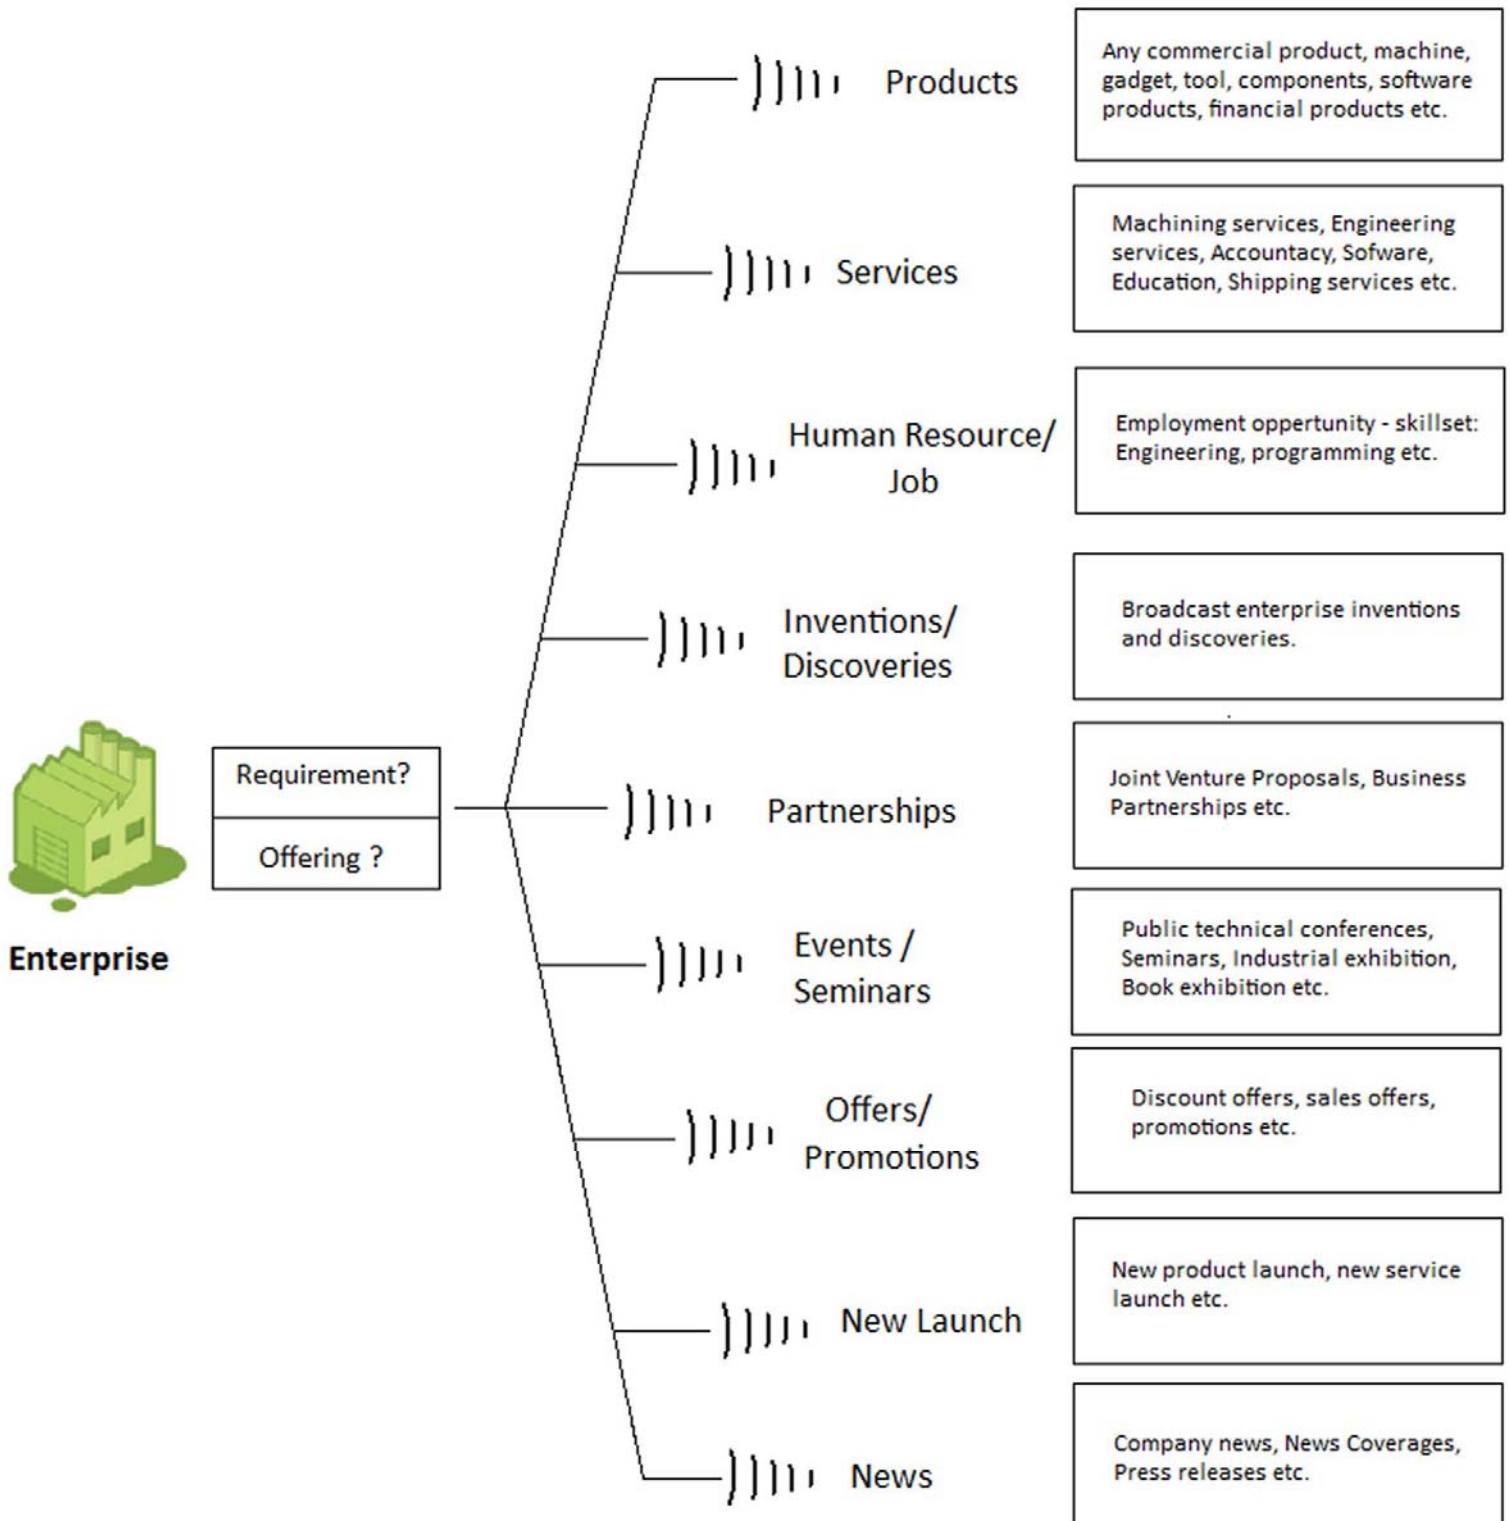

The search engine allows you to search the information(Data) broadcast by enterprises and people.

Enterprises & People send smart Broadcasts. The broadcasts are received by the Search engine and is available for search

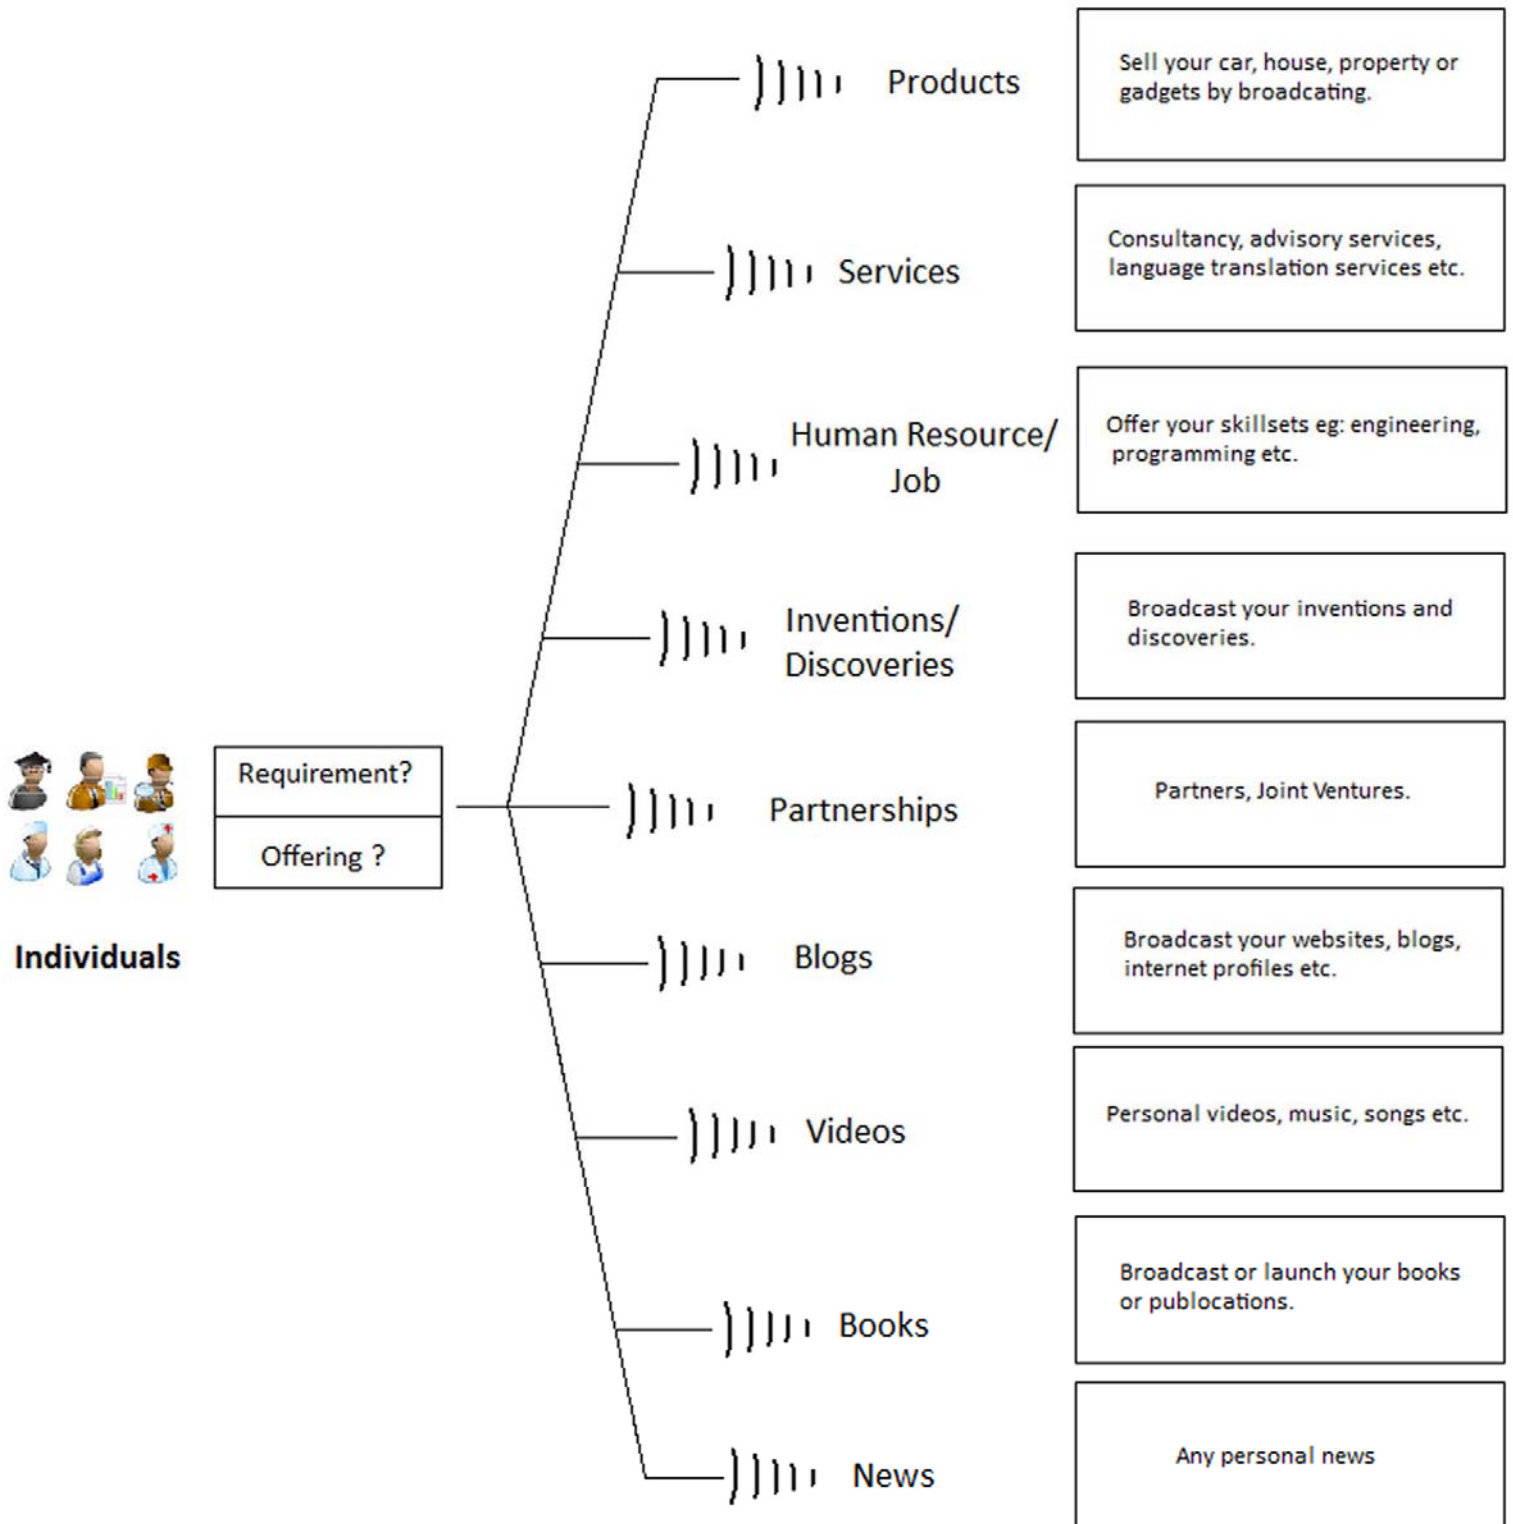

Enterprise Broadcast:

Enterprises may broadcast their requirements or offerings in the following categories:

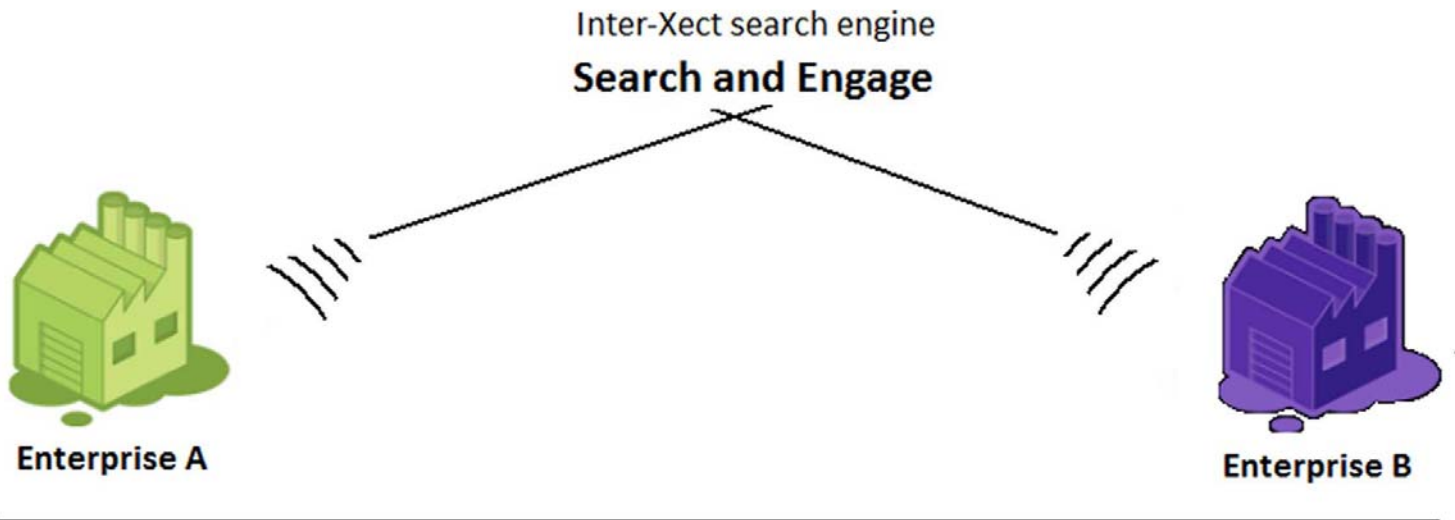

People / Individual Broadcast:

People may broadcast their requirements or offerings in the following categories:

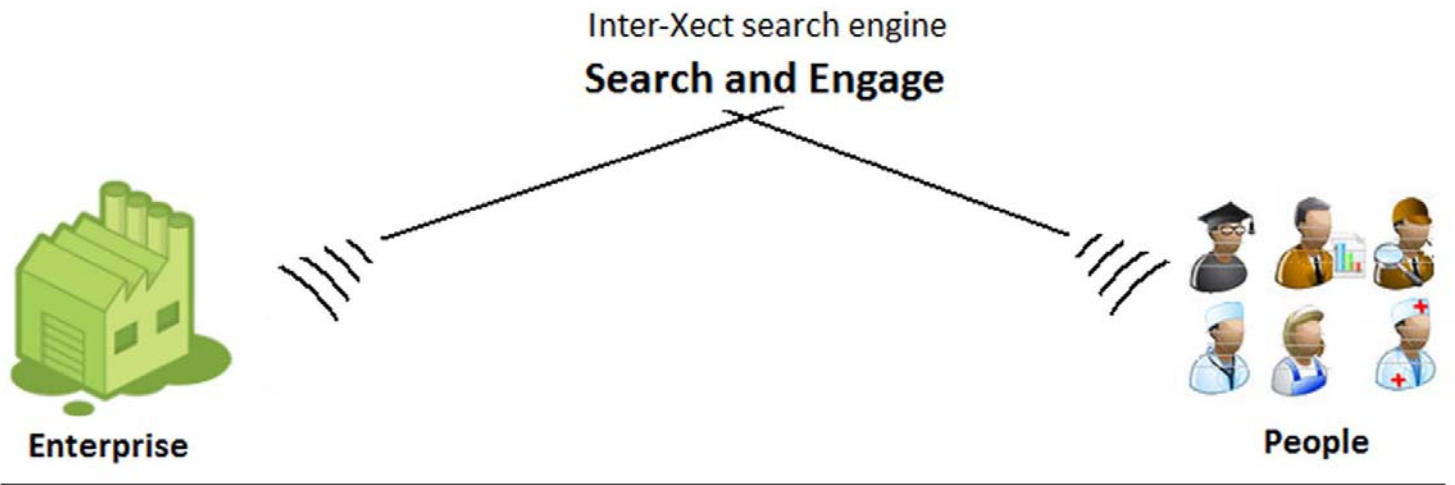

Enterprises and People find each other's requirements and offerings on the Inter-Xect Search engine. Example, If Mercedes Benz requires auto components or machines, Component manufacturers and Machine manufacturers may engage with Mercedes by finding their broadcast on the search engine.

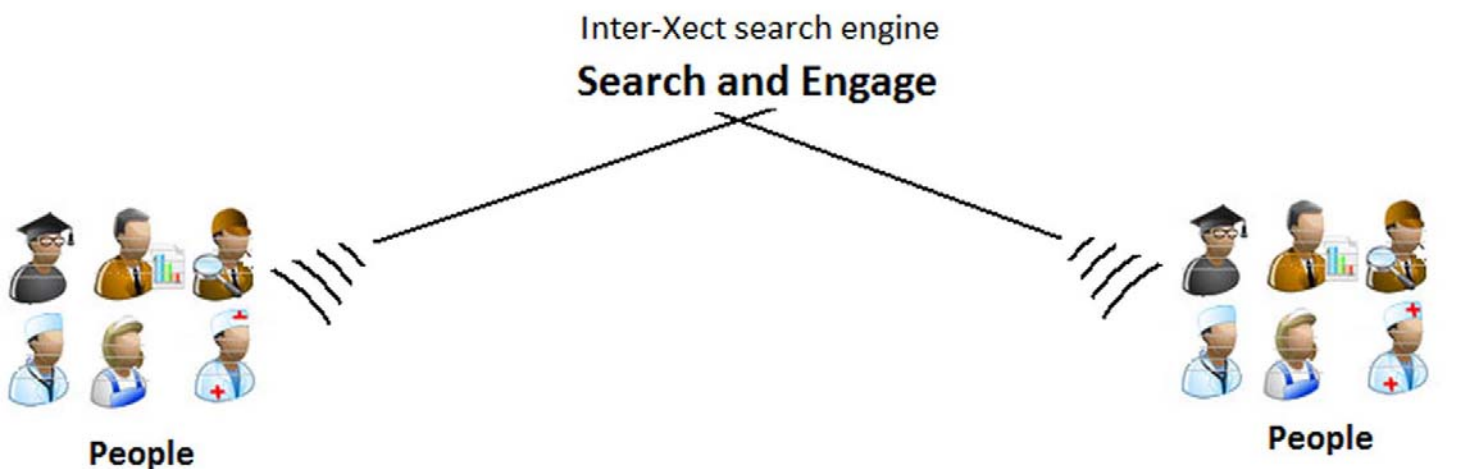

Enterprise to Enterprise Engagement & Interaction

Enterprise to People Engagement & Interaction

People to People Engagement & Interaction

Similarly, Enterprises may broadcast employment opportunities or human resource requirements and People may find the broadcast and respond to them.

These broadcasts can be about absolutely any products or service in the world covering every Industrial domain like Engineering or general domain like Agriculture. This is precisely why this search engine is called world search engine.

The following is the proprietary copyrighted search engine.

Inter-Xect Search Engine

The screenshot shows the Inter-Xect Search Engine interface. At the top, there is a header with 'T&C VECTORS' on the left and 'Inter-Xect™' in the center, with a 'Logout' button on the right. Below the header is a search bar with the text 'Test Industries' entered. The search bar includes several filters: 'Geography' (Any Region), 'Size' (Individuals), 'Industry Domain' (Any Industry), 'Industry Type (Opt)' (Any Type), 'Req/Offering' (Offering), and 'Req/Offering Type' (Offers/Promotion). There are also fields for 'Country [optional]' (Any Country), 'City/State [Optional]', 'Search Type' (Enterprise Name), and 'End Date [Optional]' (Any Date). A 'Search' button is located below the search bar. Below the search bar is a table with the following columns: 'Seq', 'Company Name / Individual', 'Description', 'url', and 'Map'. The table contains one row with the following data: '1', 'Test Industries [demo.com]', 'Official launch of the long awaited game "Laxius Force 3" is on 1-06-2010. Whoever pre-orders it will get the game for just \$6.99 Contact: Sai Sandeep, e-mail: pss200y@gmail.com [Keywords: Laxius force 3,role playing game,RB211]', 'www.aldorlea.com', and 'Map'. Below the table is a 'Page Number' field with '1' and a 'Go' button, followed by 'of Total Pages: 1'. The interface is annotated with various labels: 'Industry -Aviation ,Software' points to the 'Any Industry' dropdown; 'Type of Firm : Product OEM /Service / Trade' points to the 'Any Type' dropdown; 'Offering or Requirement' points to the 'Offering' dropdown; 'Products, Jobs, Services, News, Blogs, Books, Offers, Events, Videos' points to the 'Offers/Promotion' dropdown; 'End Date Aug 2010 Sep 2010 Oct 2010' points to the 'Any Date' dropdown; 'Country Germany, USA,UK' points to the 'Any Country' dropdown; 'Continent Asia,Europe' points to the 'Any Region' dropdown; 'Individuals, Large Firms, Medium or Small Firms' points to the 'Individuals' dropdown; 'Search Results' points to the table; 'State /City' points to the 'City/State [Optional]' field; 'Page Number' points to the '1' in the 'Page Number' field; 'Digital Map Link' points to the 'Map' link; and 'Search Text (Search By Keywords or Firm Name)' points to the search bar.

Advantages

Enterprise Point of View:

1. Eliminate Advertising and marketing expenditure and effort (Advertising relies too much of probability and chance).
2. Showcase the enterprise's complete portfolio of products and services to the world.
3. Generate real time dynamic requirement requests with ending timelines.
4. Generate marketing and commerce leads for direct enterprise to enterprise engagement.
5. Inter-Xect becomes a one stop destination to search the world and engage with it.

Individual Point of View:

1. Inter-Xect becomes a one stop destination for searching the world and engaging with enterprises and other people (Individuals).
2. Inter-Xect broadcast gives you a personal space to intelligently broadcast personal blogs, websites, books and other digital/internet related data to the world.
E.g. One can broadcast his personal blog or his human resource resume profile.

World point of View:

1. Gather critical economic and market research data to study world or industry trends.

Cost Advantage:

1. Inter-Xect is priced at approximately 125,000 US Dollars per year for Large Enterprises.
2. Inter-Xect is priced at approximately 50,000 US Dollars per year for Medium Enterprises.
3. Inter-Xect is priced at approximately 5,000 US Dollars per year for Small Enterprises.

This cost is absolutely insignificant compared to the millions and billions of dollars spent on advertising every year.

Geographical Advantage:

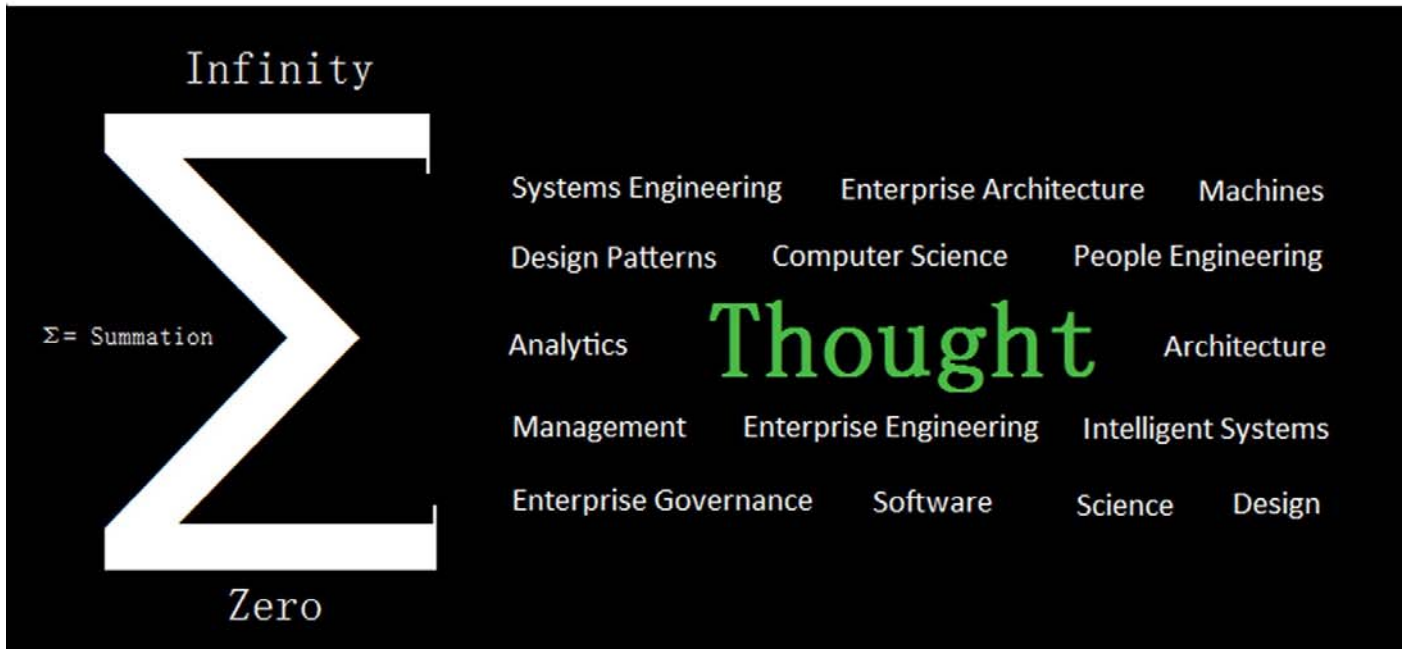

1. Inter-Xect allows you to broadcast and search at a world level or at the country level or at the state, city or village level.
